Accreditation

This course has been submitted to JCAHPO for consideration of 6 credit hours of continuing education.

This course is not sponsored by JCAHPO; only reviewed for compliance with JCAHPO standards and criteria and awarded continuing education credit accordingly; therefore, JCAHPO cannot predict the effectiveness of the program or assure its quality in substance and presentation.

Learning Objectives

~ To become more proficient at triaging eye-related complaints.
~ Explain changes in our health care system that can benefit patients.
~ Understand how uveitis could be affected by gut bacteria.
~ To gain skills in obtaining a pertinent clinical history of a patient with uveitis.
~ Better understand the utility of SD-OCT in the management of retinal diseases and uveitis.
~ Recognize when the boundaries of different retinal layers have been incorrectly identified by the image processing software with the OCT device and learn how to correct these errors.
~ Explain the use of objective screening technology as a primary vision screening tool for children.
~ Describe the benefits of cross-linking, clinical outcomes and possible complications.
~ Recognize physical exam findings of various secondary glaucomas.
~ To improve recognition of common ophthalmic emergencies.
~ Describe how femtosecond laser cataract surgery works.
~ Improve recognition of common mistakes when using EMR's.
