Thorny Issues in Ophthalmology

Beauty, Brains and the Beast: Oculoplastics, Neuro-ophthalmology, Glaucoma and More

Legacy Health

Legacy Devers Eye Institute

LEGACY HEALTH

CME Conference: Sept. 16–17, 2011

Learning objectives

Upon successful completion of this lecture, the participant should be able to:

1. Improve diagnosis and treatment of angle closure glaucoma
2. Increase recognition and improve treatment of blepharoplasty complications
3. Recognize indications and implement guidelines for intraocular Avastin® use
4. Incorporate minimally invasive techniques into an ophthalmology practice
5. Implement new glaucoma therapies
6. Implement eyelid reconstruction techniques

Target audience

The target audience for this conference is ophthalmologists and other eye care professionals.

Disclosures

A full faculty disclosure will be presented at the conference.

Conference location

Legacy Emanuel Medical Center, Lorenzen Auditorium, 2801 N. Gantenbein Ave., Portland, Ore. Parking is available in all three parking structures. Parking structure #3 on Graham Street is the most convenient. For more information, please call 503-413-8203.

Exhibits and financial support

Exhibits are open each day of the conference and located in the Upper Lorenzen Conference Center. Companies providing educational grants and exhibits will be identified prior to the conference.

Accessibility

In accordance with the Americans with Disabilities Act, Legacy Health seeks to make this conference accessible to all. If you have a disability that might require special accommodations, please contact Legacy CME at 503-413-3401.

Thorny Issues in Ophthalmology
