Legacy Health-PCC Therapeutic Horticulture

Informational Meetings

June 11, October 29, 2012 or February 25, 2013 5:00 – 6:00 p.m.

Legacy Good Samaritan Medical Center 1015 NW 22nd Ave. Portland 97210.

Wistar Conference Rm, first floor.

Plan to attend one of the meetings (not required) for more information about Legacy-PCC Gerontology Program Therapeutic Horticulture course series. RSVP required to thazen@lhs.org or http://www.pcc.edu/ger.

To prepare for GRN 267, we recommend the following college coursework: one horticulture course, one psychology course, one gerontology course, houseplants (foliage plants offered summer 2012) and the activity director course. Students will need to be able to use the computer to type most work and prepare charts with rows, columns, header, footer, etc. All classes may be taken at PCC.

Join NWTH networking group. This is a free professional group nwtherapeutichorticulture@gmail.com. This is where members share information.

Please join us for Legacy events. See www.legacyhealth.org/gardens for programs and events. Page one is the public page. Page two is for professionals.

See www.healinglandscapes.org for many more resources.
