An Important Update from Legacy Laboratory Services

September 27,2019

Testing Delay: Thyroxine, Free (T4F)

Due to an unanticipated vendor change in reagent performance, Legacy Laboratory Services is unable to perform Thyroxine, Free (T4F) aka Free T4 testing. We sincerely apologize for the delay and are working with the vendor to get testing back online as soon as possible. All patient specimens have been stabilized and will be tested as soon as alternate reagent is received.

Referral of pending patient specimens is available upon request by phoning our Legacy Laboratory Client Services Department at 503-413-1234.

For additional information, please contact your account representative, client services or consult our website:
