Subject: Medication Reconciliation Home Medication List

Urgent       For Review       Please Comment       Please Reply       Please Recycle

---

● Comments:

The following pages contain a list of discharge medications for one of your clinic patients. Your patient was recently admitted to (or entered into) Legacy Health System. This is his/her current list of medications to be taken upon discharge/release. The Joint Commission requires all accredited hospitals to send this information to the patient's primary care provider (or next provider of service) upon discharge.
