# September 2013

## Learn more about VisualDX – Webinars scheduled in September

Learn how to use <u>VisualDX</u> - our latest clinical decision support tool - effectively and efficiently by attending a 20 minute webinar in September. The webinar will be presented by VisualDX staff. VisualDX combines high-quality, peer-reviewed medical images and concise information to support accurate recognition and management of disease.

#### Webinar Schedule:

Monday, September 16<sup>th</sup> at 8:00 am. Wednesday, September 18<sup>th</sup> at Noon. Friday, September 20<sup>th</sup> at 4:30 pm.

To register, please email me with your choice of day/time at cgalgans@lhs.org

## Access Medicine 75 ebook collection available to you via OHSU

A small portion of the licensing fee for licensed health care providers in Oregon is provided to the OHSU Library to provide access to selected Library electronic resources statewide. OHSU has recently announced that they have chosen to offer Access Medicine's collection of online textbooks to all licensed personnel. Access Medicine includes 75 reference books covering medicine and the basic sciences, including the Lange Current Diagnosis and Treatment series, Harrison's, Goodman and Gilman's and much more. It can be personalized and offers downloads for mobile devices.

To take advantage of these resources, you will need to register for an OHSU barcode. You can register for the barcode or access the resources at this link.

Because this duplicates our Legacy Health subscription to Harrison's Online, we are considering not renewing our subscription for 2014. Please <a href="mailto:emailto

## New Print Books added to our Library collection!

To view new print and electronic resource acquisitions, visit the <u>Online Library catalog.</u>

All electronic resources are immediately available. Physicians and staff at all Legacy Health facilities may check out print books for 4 weeks, with renewals.

# Multimedia content now searchable on OvidSP databases.

Legacy Health now has access to videos of procedures, expert interviews, diagnosis and treatment techniques, lectures and article discussions, as well as images for visual diagnosis, education, presentations and more from OvidSP. The multimedia assets will be available for the journals and books we currently subscribe to. Screen shots of this new service are available here.

The NEW ENGLAND
JOURNAL of MEDICINE

NEJM begins a new series of review articles that address problems and challenges in critical care medicine. Topics will include the management of severe sepsis, use of resuscitation fluids, and the treatment of shock. The first article of the
