

Randall Children's Hospital

Securing our hospital

Providing our patients, families, visitors, staff and doctors with a secure and healthy environment is important to us at Randall Children's Hospital at Legacy Emanuel.

Starting Monday, September 30, 2013 at 5 a.m. all families/visitors will need to check in with the security guard next to the elevators in the main lobby.

Because of our security presence, the main lobby doors will now be unlocked 24 hours a day 7 days a week.

After letting the security guard know who you are here to see you will receive a temporary visitor badge good for 24 hours. The security badge will become inactive after 24 hours and will need to be replaced by the security guard in the Randall Children's Hospital lobby each day.

Patients with patient bands and visitors with parent/visitor bands will be allowed to access the pediatric floors by showing the security guard their band.

Security staff will remind you to wash your hands and use hand sanitizer when you visit patient floors. You will also be asked if you have had a fever or cough recently because you may not want to visit your loved one if you have been sick.

Thank you so much for visiting Randall Children's Hospital.

If you have any questions please ask security staff or the staff at the front desk.
