## 2 LEGACY HEALTH SYSTEM OVERVIEW

---

Legacy Health is an Oregon-based not-for-profit, tax-exempt corporation that includes seven full-service hospitals, including a children's hospital, a full-service research facility, and a 24-hour behavioral and mental health services center. With more than 14,000 full- and part-time employees, Legacy is one of the largest private sector employers in the metropolitan areas of Portland, Oregon, and Vancouver, Washington. The Legacy system provides an integrated network of health care services, including acute and critical care, inpatient and outpatient treatment, behavioral and mental health care, community health education and a variety of specialty services.

Within the system, [Randall Children's Hospital](#) is a regional leader in the care of infants, children and teens. Legacy [Oregon](#) Burn Center is the only advanced burn care facility between Seattle and Sacramento; Legacy Emanuel has a Level 1 [Trauma Center](#) designation verified by the American College of Surgeons, the highest available for emergency care. Three of the medical centers that are part of Legacy Health have obtained CMS 5-star designation. Legacy also has primary care and specialty clinics, as well as hospice and laboratory services.

### History

Legacy's roots date back more than 100 years. Our two oldest hospitals, Good Samaritan (est. 1875) and Emanuel (est. 1912) were founded by faith-based groups seeking to care for the growing city. As the decades went on, those two hospitals grew into larger health organizations. In 1989 they merged to create Legacy Health. Most recently, Silverton Health joined the Legacy family and now carries the Legacy name.

THE LEGACY WAY

Our legacy is good health, for:

- OUR PEOPLE
- OUR PATIENTS
- OUR COMMUNITIES
- OUR WORLD

Above all, we will do the right thing.

**We value**

-  **RESPECT** We treat all people with respect and compassion.
-  **SERVICE** We put the needs of our patients and their families first.
-  **QUALITY** We deliver outstanding clinical services within healing environments.
-  **EXCELLENCE** We set high standards and achieve them.
-  **RESPONSIBILITY** We are good stewards of our resources, ensuring access to care for all.
-  **INNOVATION** We are progressive in our thinking and actions.
-  **LEADERSHIP** We serve as a role model of good health and good citizenship.

## 3 PHARMACY OVERVIEW

---

Pharmacy has a strong presence in all clinical areas within Legacy, with pharmacists decentralized in multiple patient care areas and pharmacist participation in patient care rounds. Pharmacists consult on Burn, Critical Care, Internal Medicine, Neonatal ICU, Neurology/Stroke, Oncology, Orthopedic Surgery, Pediatrics, Transplant, and Trauma units.

Pharmacy protocols are established for pharmacists to manage renal dosing, IV to PO conversions, anticoagulation (examples: warfarin and heparin), antibiotics (including but not limited to vancomycin and aminoglycosides), total parenteral nutrition, stress ulcer prophylaxis, phenytoin, and therapeutic drug interchange.

Primary care clinics, transplant clinic, specialty pharmacy, outpatient oncology, and medication management service clinics also utilize pharmacists for collaborative patient care including population health management.

Pharmacy Services operates retail outpatient pharmacies at six hospitals providing clinic, employee and discharge prescriptions.

**Our why:** To strengthen, unify, and innovate the way we care for one another and our world.

**Our Vision:**

Be Engaged: Providing the safest medication therapy and empowering patients for better health.

Be Connected: Caring for one another. Be vital to our community and our world.

Be Innovative: Investing in activities that make Pharmacy services essential.

Be a Leader: Market leader practice excellence.

Our Mission: to provide safe, sustainable, and effective pharmacy services that promote health and healing.

# 4 RESIDENCY PROGRAM OVERVIEW

---

## History

Legacy Health began their pharmacy residency program in 2001 with one resident, an OSU graduate, and the program was accredited by the American Society of Health System Pharmacists in 2002. The next two residency years 2002-03 and 2003-04 also had a single resident. In 2004-05, we expanded our program to two residents and had two residents for four years. In 2008, we expanded to three residents. In 2014, we initiated our PGY2 training program with a focus on Transitions in Care. In 2017, we changed our PGY2 training program to Ambulatory Care as well as expanded our PGY1 to four residents. In 2018, we started an Infectious Disease PGY2. In 2019, we expanded our PGY1 program to a multi-site program with six residents at 5 sites.

## 5 *PGY1 RESIDENCY*

### *PROGRAM*

---

#### PGY1 Program Purpose

PGY1 residency programs build upon Doctor of Pharmacy (PharmD) education and outcomes to develop pharmacist practitioners with knowledge, skills, and abilities as defined in the educational competency areas, goals, and objectives. Residents who successfully complete PGY1 residency programs will be skilled in diverse patient care, practice management, leadership, and education, and be prepared to provide patient care, seek board certification in pharmacotherapy (i.e., BCPS), and pursue advanced education and training opportunities including postgraduate year two (PGY2) residencies.

#### Program Quality Improvement and Assurance

The residency will conduct annual needs and growth opportunities assessment through evaluation of all learning experience evaluations and end-of-program-year survey to preceptors and residents identifying markers for change management (what to start, stop, and continue). Opportunities will be prioritized according to resources and significance of need as advised by the Residency Advisory Committee.

## Program Structure and Timeline

### Legacy Health PGY1 SAMPLE Program Structure 2023-2024

Orientation	General Medicine	Staffing Orientation	Critical Care	Elective I	Midyear Emergency Medicine	Elective II	Administration	Elective III	Precepting	Project	Elective IV
6/20-7/8	7/11-8/5	8/8-9/16	9/19-10/28	10/31-12/9	12/12-1/6	1/9-2/3	2/6-3/3	3/6-3/31	4/3-5/6		5/9-6/16
<b>Rotations:</b> Four-to-six-week block rotations in addition to longitudinal learning experiences, Orientation, Administration and Emergency Medicine must be a minimum of 4 weeks; all other required rotations are 6 weeks in length											
<b>Project:</b> (flipped model)		Data collection, analysis, written summary, and presentation				Finalize <u>manuscript</u> : IRB proposal submission for new project			Formal project presentation (May)		
<b>Presentations:</b> Poster presentation at OSHP Annual Seminar or ASHP Midyear, Project presentation at Northwestern States Regional Conference											
<b>Staffing:</b> 240 hours independent staffing during residency year – may be every other or every third weekend and may be week-long blocks											
<b>Formulary Monograph:</b> Complete a formulary review and present to P&T						<b>Medication Use Evaluation:</b> Complete an MUE and present to P&T or appropriate committee					
<b>Residency Evaluations and Documents:</b> Evaluations completed and submitted no later than 1 week following rotation, documents uploaded to PharmAcademic throughout year											
<b>Optional:</b> Oregon Pharmacy Teaching Certificate (OPTC) offered through Pacific University and Oregon State University with a focus on precepting or academia.											

#### Required Longitudinal Rotations

- Practice Management
- Staffing (Central Pharmacy)
- Longitudinal Residency Project

#### Required Block Rotations

- Orientation
- General Medicine
- Emergency Medicine
- Precepting
- Critical Care
- Administration

#### Elective Rotations

- Ambulatory Care
- Medication management service
- Transitions of Care
- Renal Transplant
- Oregon Burn Center
- Inpatient Oncology
- Ambulatory Oncology
- Infectious Diseases
- Advanced Critical Care
- Pediatric Critical Care

<b><u>PGY1 Rotations (Descriptions available in PharmAcademic)</u></b>	<b>Length</b>
<b>Required Experience</b>	
Orientation to program	3 weeks
Orientation to staffing	4 weeks
Staffing (Inpatient Pharmacy)	Longitudinal: Year-long
Longitudinal Residency Project: Resident research project (flipped research model) Legacy residents get the opportunity to complete a formal research project. This project will follow the “flipped research model” and has the residents completing a project in Jan/Feb of their residency year and then starting a new project that will be handed off to the incoming resident in June upon completion of the training program.	Longitudinal: Year-long
Practice Management	Longitudinal: Year-long
Leadership Class	Longitudinal: Year-long
<b>Required Core Rotations</b>	
General Medicine	7 weeks
Critical Care	6 weeks
Emergency Medicine	4-6 weeks*
Administration	4 weeks*
Precepting	4 weeks*
<b>Elective Rotations</b>	
Inpatient Oncology	4 weeks*
Ambulatory Oncology	4 weeks*
Renal Transplant	4 weeks*
Infectious Diseases	4 weeks*
Ambulatory Care	4 weeks*
Transitions of Care	4 weeks*

Medication Management Clinic	4 weeks*
Advanced Critical Care (Pediatrics, CVICU, Neurotrauma)	4 weeks*
Operating Room	4 weeks*
Burn Center	4 weeks*
Oregon Pharmacy Teaching Certificate (OPTC): offered through Pacific University and Oregon State University. Option to pick focus area of precepting or academia.	Longitudinal

\*Elective learning experience may be extended to 6 weeks depending on interest of the resident; residents can complete up to 12 weeks of electives away from their home site.

**Evaluation scale (for preceptor and resident self-assessment):**

- **Achieved for residency:** The resident meets the objective and can perform associated activities independently across the scope of pharmacy practice. Resident consistently completes objectives at an “Achieved” level, for the residency.
  - At a minimum, the resident has been marked as achieved at least twice for the Patient Care competency area R1.
  - At a minimum, the resident has been marked as achieved at least once for the following required competency areas:
    - R2 (Advancing Practice and Improving Patient Care)
    - R3 (Leadership and Management)
    - R4 (Teaching, Education and Dissemination of Knowledge)
    - E5 (Management of Medical Emergencies)
  
- **Achieved for this learning experience:** The resident has met the expectations for mastery of the learning activities associated with the objective, within the scope of this learning experience.
  - Can successfully perform learning experience activities independently
  - Has accomplished the ability to perform the objective within this learning experience
  - Rarely (1x/week) requires assistance to complete activities related to the objective
  - No further developmental work needed for this objective in this learning experience
  
- **Satisfactory Progress:** The resident is performing and progressing as expected at this time in this learning experience. Document identified growth opportunities within the learning experience that move toward mastery of the objective (or activity).
  - Sometimes requires assistance to complete the objective
  - Able to ask appropriate questions to supplement learning
  - Evidence of significant improvement during the learning experience, even if it is not complete mastery of the activity or objective
  - Can perform expected activities with some guidance and can complete the requirements without significant input from the preceptor
  
- **Needs Improvement:** Resident is not performing at an expected level at this time; improvement is needed.
  - Deficient in knowledge/skills in this area
  - Often requires assistance to compete the objective
  - Unable to ask appropriate questions to supplement learning
    - Resident recommendations are incomplete and/or poorly researched or lack appropriate data to justify making changes in patient’s medication regimen
    - Resident consistently requires preceptor prompting to communicate recommendations to members of the healthcare team or to follow up on issues related to patient care
    - No apparent effort made by the learner to improve knowledge or lack of knowledge poses patient safety risk
    - Provides inaccurate drug information responses with inappropriate recommendations for patient care
    - Consistently writes error filled consult notes with inappropriate therapy management recommendations. Consistently requires multiple revisions based on preceptor feedback

Requirements for completion of the residency are reviewed by the RAC on an annual basis. PGY1 resident must achieve all residency goals and objectives by the end of the residency year. Progress will be monitored by the RPD through at least quarterly evaluations and the resident's customized training plan.

# 6 PGY2 AMBULATORY CARE RESIDENCY PROGRAM

---

## PGY2 Program Purpose

PGY2 residency programs build upon Doctor of Pharmacy (PharmD) education and PGY1 pharmacy residency training to develop pharmacist practitioners with knowledge, skills, and abilities as defined in the educational competency areas, goals, and objectives for advanced practice areas. Residents who successfully complete PGY2 residency programs are prepared for advanced patient care or other specialized positions, and board certification in the advanced practice area, if available.

## Overview

The specialty residency will focus on providing comprehensive pharmaceutical care in a variety of multidisciplinary ambulatory settings. The resident will have teaching opportunities with multidisciplinary audiences. Residency expectations include a research project focusing on the establishment, expansion, or evaluation of an ambulatory patient care service. A successful resident will possess the competencies that qualify them for clinical pharmacist and/or faculty positions and position them to be eligible for attainment of board certification in ambulatory care practice.

## Program Quality Improvement and Assurance

The specialty residency will conduct annual needs and growth opportunities assessment through evaluation of all learning experience evaluations and end-of-program-year survey to preceptors and resident identifying markers for change management. (What to start, stop, and continue) Opportunities will be prioritized according to resources and significance of need as advised by the PGY2 Ambulatory Care Residency Advisory Committee and the System-wide Residency Advisory Committee.

**Rotations 2023-2024 (Descriptions available in PharmAcademic)**

<b>Required Experience</b>	<b>Length</b>
Orientation	4 weeks
Staffing (Internal Medicine Clinic)	Longitudinal: Year-long
Longitudinal Residency Project	Longitudinal: Year-long
Practice Management	Longitudinal: Year-long
<b>Required Core Rotations</b>	
Primary Care I	8 weeks
Primary Care II	8 weeks
Primary Care III	8 weeks (plus ASHP Midyear)
Population Health	4 weeks
Administration	4 weeks
<b>Elective Rotations</b>	
Academia	4 – 6 weeks*
Advanced Administration	4 – 6 weeks*
Advanced Primary Care	4 – 6 weeks*
Community Pharmacy	4 – 6 weeks*
Informatics	4 – 6 weeks*
Medication Management Services	4 – 6 weeks*
Renal Transplant	4 – 6 weeks*
Rural Internal Medicine	4 – 6 weeks*
Specialty Pharmacy	4 – 6 weeks*
Teaching Certificate	4 – 6 weeks*
Transitions of Care	4 – 6 weeks*

\*Please see learning experience descriptions in PharmAcademic™ for criteria in determining length of the elective rotation

## Program Structure

### Legacy Health PGY2 Ambulatory Care SAMPLE Program Structure 2023-2024

Orientation	Primary Care I	Primary Care II	Primary Care III	Administration	Population Health	Elective I	Elective II	Elective III
5 weeks	8 weeks	8 weeks	8 weeks + Midyear	4 weeks	4 weeks	4 weeks	6 weeks	4 weeks
<b>Rotations:</b> Four- to eight-week block rotations in addition to longitudinal learning experiences								
<b>Project:</b>	IRB proposal submission	Complete Project: data collection, analysis, written summary, and presentation				Formal presentation and manuscript		
<b>Presentations:</b> Poster presentation at OSHP Annual Seminar (optional), Project presentation at Northwestern States Regional Conference								
<b>Staffing:</b> One day per week in an internal medicine clinic								
<b>Practice Management:</b> One day per week, virtual								
<b>OPAC (Oregon PGY2 Ambulatory Care) forum:</b> Monthly meetings (refer to OPAC meeting schedule)								
<b>Residency Evaluations and Documents:</b> Evaluations completed and submitted no later than 1 week following rotation, documents uploaded to PharmAcademic throughout year								
<b>Optional:</b> Teaching certificate, if not obtained during PGY1 residency								

#### Required Longitudinal Rotations

- Practice Management
- Staffing (Internal Medicine Clinic)
- Longitudinal Residency Project

#### Required Block Rotations

- Orientation
- Primary Care I
- Primary Care II
- Primary Care III
- Population Health
- Administration

#### Elective Rotations

- Academia
- Advanced Administration
- Advanced Primary Care
- Community Pharmacy
- Informatics

### Evaluation scale for Preceptor and Resident Self-Assessment:

- *Achieved for residency:* The resident meets the objective and can perform associated activities independently across the scope of pharmacy practice. Resident consistently completes objectives at an “Achieved” level, for the residency.
  - At a minimum, the resident has been marked as achieved at least twice for the Patient Care competency area R1.
  - At a minimum, the resident has been marked as achieved at least once for the following required competency areas:
    - R2 (Advancing Practice and Improving Patient Care)
    - R3 (Leadership and Management)
    - R4 (Teaching, Education, and Dissemination of Knowledge)
  
- *Achieved for this learning experience:* The resident has met the expectations for mastery of the learning activities associated with the objective, within the scope of this learning experience. In the last 1/3 of the rotation (e.g., last 2 weeks of a 6-week rotation):
  - Can successfully perform learning experience activities independently
  - Has accomplished the ability to perform the objective within this learning experience
  - Rarely (1x/week) requires assistance to complete activities related to the objective; minimum supervision required
  - No further developmental work needed for this objective in this learning experience
  
- *Satisfactory Progress:* The resident is performing and progressing as expected at this time in this learning experience. Document identified growth opportunities within the learning experience that move toward mastery of the objective/activity. In the last 1/3 of the rotation (e.g., last 2 weeks of a 6-week rotation):
  - Resident is performing and progressing at a level that should eventually lead to mastery of the goal/objective
  - Adequate knowledge/skills in this area
  - Sometimes (> 1x per week, < every other day) requires assistance to complete the objective
  - Able to ask appropriate questions to supplement learning
  - Requires skill development over more than one rotation
  
- *Needs Improvement:* Resident is not performing at an expected level at this time; improvement is needed. In the last 1/3 of the rotation (e.g., last 2 weeks of a 6-week rotation):
  - Deficient in knowledge/skills in this area
  - Often requires assistance to complete the objective
  - Unable to ask appropriate questions to supplement learning
  - Resident recommendations are incomplete and/or poorly researched or lack appropriate data to justify making changes in patient’s medication regimen
  - Resident consistently requires preceptor prompting to communicate recommendations to members of the healthcare team or to follow up on issues related to patient care
  - No apparent effort made by the learner to improve knowledge or lack of knowledge poses patient safety risk
  - Provides inaccurate drug information responses with inappropriate recommendations for patient care
  - Consistently writes error filled consult notes with inappropriate therapy management recommendations. Consistently requires multiple revisions based on preceptor feedback

# 7 PGY2 INFECTIOUS DISEASES RESIDENCY PROGRAM

---

## PGY2 Program Purpose

PGY2 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D.) education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in specialized areas of practice. PGY2 residencies provide residents with opportunities to function independently as practitioners by conceptualizing and integrating accumulated experience and knowledge and incorporating both into the provision of patient care or other advanced practice settings. Residents who successfully complete an accredited PGY2 pharmacy residency are prepared for advanced patient care, academic, or other specialized positions, along with board certification, if available.

## Overview

The specialty residency will focus on delivering pharmaceutical care to patients with a variety of infectious diseases, through direct patient care and broader programmatic antimicrobial stewardship initiatives. The resident will have teaching opportunities with multidisciplinary audiences. Residency expectations include a research project with abstract submission to a national conference. A successful resident will possess the competencies that qualify them for clinical pharmacist, antimicrobial stewardship program director and/or faculty positions and position them to be eligible for attainment of board certification in infectious diseases.

## Program Quality Improvement and Assurance

The specialty residency will conduct annual needs and growth opportunities assessment through evaluation of all learning experience evaluations, market analysis and end-of-program-year survey to preceptors and resident identifying markers for change management. (What to start, stop, continue.) Opportunities will be prioritized according to resources and significance of need as advised by the Residency Advisory Committee.

**Rotations (Descriptions available in PharmAcademic)**

<b>Required Experience</b>	<b>Length</b>
Orientation (Operations, Microbiology, Informatics, ASP)	8 weeks
Operations (Every 3 <sup>rd</sup> weekend)	Longitudinal: Year-long
Research Project	Longitudinal: Year-long
Practice Management	Longitudinal: Year-long
<b>Required Core Rotations</b>	
General Infectious Diseases	10 weeks
Advanced Infectious Diseases 1	2 weeks
Advanced Infectious Diseases 2	4 weeks
Ambulatory Clinic – Infectious Diseases / Multnomah County Clinic* HIV/Communicable Dz	6 months, once weekly
Antimicrobial Stewardship	Longitudinal: Year-long
<b>Elective Rotations</b>	
Academia	4 weeks
Advanced Antimicrobial Stewardship	4 – 8 weeks*
Critical Care, Medical-Surgery	3 – 6 weeks*
Critical Care, Neuro-Trauma	3 – 6 weeks*
Emergency Medicine	3 – 4 weeks*
Epidemiology and Outcomes at OSU College of Pharmacy	3 – 4 weeks*
Informatics	3 – 4 weeks*

### Requirements for Completion

Requirements for completion of the residency are reviewed by the RAC on an annual basis. PGY2 Resident must achieve 90% of goals and objectives by the end of the residency year and must have satisfactory progress on the remaining goals and objectives. Progress will be monitored by the RPD through at least quarterly evaluations and the resident's quarterly development plan.

**Evaluation scale (for preceptor and resident self-assessment):**

- **Achieved for residency:** The resident meets the objective and can perform associated activities independently across the scope of pharmacy practice. Resident consistently completes objectives at an “Achieved” level, for the residency.
  - At a minimum, the resident has been marked as achieved at least twice for the Patient Care competency area R1.
  - At a minimum, the resident has been marked as achieved at least once for the following required competency areas:
    - R2 (Advancing Practice and Improving Patient Care)
    - R3 (Leadership and Management)
    - R4 (Teaching, Education, and Dissemination of Knowledge)
  
- **Achieved for this learning experience:** The resident has met the expectations for mastery of the learning activities associated with the objective, within the scope of this learning experience. In the last 1/3 of the rotation (e.g. last 2 weeks of a 6 week rotation, last 1 week of a 3 or 4 week rotation):
  - Can successfully perform learning experience activities independently
  - Has accomplished the ability to perform the objective within this learning experience
  - Rarely (1x/week) requires assistance to complete activities related to the objective; minimum supervision required
  - No further developmental work needed for this objective in this learning experience
  
- **Satisfactory Progress:** The resident is performing and progressing as expected at this time in this learning experience. Document identified growth opportunities within the learning experience that move toward mastery of the objective (or activity). In the last 1/3 of the rotation (e.g. last 2 weeks of a 6 week rotation, last 1 week of a 3 or 4 week rotation):
  - Resident is performing and progressing at a level that should eventually lead to mastery of the goal/objective
  - Adequate knowledge/skills in this area
  - Sometimes (> 1x per week, < every other day) requires assistance to complete the objective
  - Able to ask appropriate questions to supplement learning
  - Requires skill development over more than one rotation
  
- **Needs Improvement:** Resident is not performing at an expected level at this time; improvement is needed. In the last 1/3 of the rotation (e.g. last 2 weeks of a 6 week rotation, last 1 week of a 3 or 4 week rotation):
  - Deficient in knowledge/skills in this area
  - Often requires assistance to complete the objective
  - Unable to ask appropriate questions to supplement learning
  - Resident recommendations are incomplete and/or poorly researched or lack appropriate data to justify making changes in patient’s medication regimen
  - Resident consistently requires preceptor prompting to communicate recommendations to members of the healthcare team or to follow up on issues related to patient care
  - No apparent effort made by the learner to improve knowledge or lack of knowledge poses patient safety risk
  - Provides inaccurate drug information responses with inappropriate recommendations for patient care

- Consistently writes error filled consult notes with inappropriate therapy management recommendations. Consistently requires multiple revisions based on preceptor feedback

Policy Link: [Requirements for Completion](#)

Requirements for completion of the residency are reviewed by the RAC on an annual basis. PGY2 resident must achieve 90% of all residency goals and objectives by the end of the residency year. Progress will be monitored by the RPD through at least quarterly evaluations and the resident's customized training plan.

[Teaching Certificate](#)

## PharmAcademic

[PharmAcademic](#)

Includes instructions for logging in to PharmAcademic, updating your password and user information, viewing announcements, viewing your schedule, viewing formative feedback, viewing residency program information, viewing your resident information, and completing and cosigning evaluations.

[Blooms taxonomy](#)

## Evaluations

Summative, formative, quarterly, and exit evaluations should be completed in PharmAcademic. Evaluations should be completed in PharmAcademic on or before the assigned due date and discussed with the resident at the end of the rotation. If more than one preceptor is assigned for a Learning Experience, all preceptors will provide input on resident evaluations.

[Legacy Self-Assessment/Self-Evaluation Philosophy and Strategy](#)

**Summative Evaluations:** Final judgment and determination regarding quality of learning. Specific comments should be included to provide the resident with information they can use to improve their performance in subsequent learning experiences.

**Formative Evaluations:** On-going feedback to residents regarding their progress on achievement of educational objectives for the purpose of improving learning.

**Quarterly Evaluations** (Available in PharmAcademic)

**Exit Evaluations** (Available in PharmAcademic)

**Initial Resident Self-Reported Interest and Preferences** (Available in PharmAcademic)
