December 2016 Newsletter

Thousands of psych articles coming soon to a computer near you

In preparation for the opening of the new Unity Center for Behavioral Health in January, Legacy Library is adding a new database, called PsycARTICLES. PsycARTICLES will expand the library’s coverage in psychiatry, psychology, psychopharmacology, and related articles, and includes thousands of full text articles from journals published by the American Psychological Association and more.

PsycARTICLES is recognized worldwide as a leading full text source for academic, research and practice literature in psychology and related disciplines. Featuring a continuously growing number of significant and highly regarded periodicals, PsycARTICLES is an unmatched resource for information in behavioral science.

Stay tuned for more information on PsycARTICLES on the library’s website and in future Legacy Library newsletters.

Cochrane Systematic Reviews is a valuable resource

Legacy Library has many different databases available for your research needs. Offering the highest quality evidence-based research, the Cochrane Systematic Reviews database is a great place to find credible, accessible health information. Cochrane’s thousands of contributors from all over the globe contribute to the research published in this database.

Want to learn more about using Cochrane Systematic Reviews? Schedule a one-on-one instruction session with one of our qualified medical librarians.

Claim your CME credit for 2016

The end of the year is quickly approaching – have you claimed all of your CME credit for 2016?

Legacy Health CME Services offers online program evaluations to claim CME/CE credit and obtain certificates electronically for many of its program activities which include grand rounds, webinars, conferences and enduring materials (On Demand CME).

Not sure how to claim credit? Watch this tutorial.

Not all CME activities allow for online credit claiming. Check out the Claim Credit Calendar to find out if an activity has online credit claiming. Ready to claim your credit for CME events you attended? Visit the CME website.
What’s new in e-books?

New e-books and updated editions of popular medical texts are added to the Legacy Library’s databases frequently. Here are a few of our most recent titles:

Table of Contents Spotlight: Nursing

Are you receiving the latest articles in nursing? Legacy Library subscribes to many great journals in this field including:

- 2017 Intravenous Medications
- Clinical Reasoning and Care Coordination in Advanced Practice Nursing
- Massachusetts General Hospital Comprehensive Clinical Psychiatry
- The Surgical Critical Care Handbook: Guidelines For Care Of The Surgical Patient In The ICU
- Evidence-Based Practice of Critical Care
- Pediatric Emergent/Urgent and Ambulatory Care
- Manual of Allergy and Clinical Immunology for Otolaryngologists
- Pediatric Psychopharmacology For Primary Care
And many more!

Stay up-to-date on the nursing literature by visiting the Table of Contents service webpage to access the online form to sign up for electronic table of contents. When new journal issues are published that you are interested in receiving, Library staff will forward you an email that includes links to the table of contents and full text articles.

Check out the newest CME courses available online
Earn CME credit at your convenience with CME On Demand. This service provides an opportunity for you to watch previously recorded live CME activities and obtain CME credit.

Recent programs include “Obesity, Metformin, and Gynecologic Cancer” by Weiya Wysha, MD, “Breast Density and Why It Matters” by Kari Thomas, MD, and all of the Hyperbaric Lecture Series events with Enoch Huang, MD.

Find more CME On Demand programs here.
