New manager named for Library, CME and AV Services

Heather Hawley has been named the new manager of the Medical Library, Continuing Medical Education and Audiovisual Services Department. Heather has been with Legacy for the past two years as a Medical Librarian/CME Coordinator for Legacy Good Samaritan.

Heather holds a Master's Degree in Library Sciences and has extensive experience at both academic and medical institutions. Heather is passionate about knowledge management and life-long learning and is excited to take on this new opportunity. Heather has assumed her new role as manager as of August 21, and is located next to the medical library at Legacy Emanuel.

She replaces former manager Carol Galganski, who retired in July after nine years with Legacy. Carol will continue to work in a supplemental position supporting the CME department.

Going back to school? Our nursing resources can help

Need to find information for patient care, staff education, research councils, leadership projects or school assignments? You can find all this and more at the Legacy Medical Library. At the Library, professional librarians and staff are available to 8 a.m. to 4:30 p.m. Monday through Friday to assist you with your research needs. The Library serves all of Legacy - hospitals, clinics, administration, Legacy Medical Group, etc.

24-hour Access: Visit the Library website from any computer any time to access the Library's extensive online resources or to request Library services. When prompted, use your Legacy ID and password to login.

August ABOG articles available online

If you are an OB/GYN participating in the Maintenance of Certification program from the
American Board of Obstetrics and Gynecology (ABOG), you can find the most current reading lists from August 2017 on our library website. These lists directly link to the articles through Legacy Library’s resources, allowing you to get the articles quickly and easily. The website also includes and archive of previous reading lists going back to 2013.

The reading lists provided by Legacy Library include all specialties: gynecology, obstetrics, office practice, female pelvic medicine and reconstructive surgery, gynecologic oncology, maternal fetal medicine, and reproductive endocrinology and infertility. Visit the ABOG page to download the reading lists.

**Enduring materials now available on E+**

You can now view a selection of previously recorded lectures in [E+ on the Legacy Intranet](#). These recordings of presentations given at Legacy on a variety of medical topics in recent years. Click here for a list of videos available. Just search for one of the titles in E+ to view.

The recordings are informational purposes only and are not eligible for CME credit.

**New eBooks from Ovid**
