12.D EMERGENCY CLINICAL PRIVILEGES

- (a) For the purpose of this section, an "emergency" is defined as a condition which could result in serious or permanent harm to a patient or in which the life of a patient is in immediate danger and any delay in administering treatment could add to that harm or danger.
- (b) In such an emergency, any Practitioner who is currently appointed to the Medical Staff with Privileges is permitted by Hospital to provide any type of patient care, treatment, and/or services necessary as a life-saving measure or to prevent serious harm (regardless of that Practitioner's appointment or Privileges) provided that the care, treatment, and services provided are within the scope of the Practitioner's license.
- (c) Emergency Privileges automatically terminate upon alleviation of the emergency situation. When the emergency situation no longer exists, the patient shall be assigned by the appropriate department chair or the President of the Medical Staff to an appointee with appropriate Clinical Privileges. The wishes of the patient shall be considered in the selection of a substitute treating Physician.

- (b) Disaster Privileges may not exceed the limits of the Practitioner's licensure and should be specific to the Practitioner's specialty and for the primary function of stabilizing and triaging patients. Whenever possible, a Practitioner with disaster Privileges should act under the supervision of a current Medical Staff Member with Privileges in the same specialty.

- (d) Disaster Privileges are time-limited and automatically terminate at the time that HEICS Medical Director determines that an emergency situation no longer exists, or sooner if there is no longer a need for the additional assistance.

If a volunteer Practitioner does not have such identification, they will be issued a temporary badge by the Hospital Security Department identifying themselves and designating the Practitioner as a volunteer Practitioner disaster care provider.

- (g) The Board may accept, modify, or reject the MEC's recommendation.
- (h) Not later than fourteen (14) days following the original imposition of the summary suspension, the Medical Staff President shall notify the Practitioner, by Special Notice, of the MEC's determination; or, in the case of a summary suspension imposed by the Board or the Hospital President, of the MEC's recommendation as to whether such summary suspension should be terminated, modified, or continued.
- (i) If a summary suspension remains in place for more than fourteen (14) days, the Practitioner shall be advised, by Special Notice, of the Practitioner's rights, if any, pursuant to the Medical Staff Bylaws and Fair Hearing Policy.

14.D: AUTOMATIC SUSPENSION

14.D.1. Grounds for Automatic Suspension/Limitation

The following events shall result in an automatic suspension of Medical Staff appointment and/or Privileges without recourse to the procedural rights set forth the Fair Hearing Policy.

- (a) **Licensure Suspension or Expiration.** Whenever a Practitioner's license is suspended by the applicable licensing entity or expires, the Practitioner's Medical Staff appointment and Privileges shall be automatically suspended.
- (b) **Licensure Restriction.** Whenever a Practitioner's license is limited/restricted by the applicable licensing entity, the Practitioner's Medical Staff appointment and Privileges will be likewise automatically limited/restricted.
- (c) **Probation.** Whenever a Practitioner's license is made subject to probation by the applicable licensing entity, the Practitioner's Medical Staff appointment and Privileges shall automatically become subject to the same terms of such probation.
- (d) **Controlled Substance Authorization Suspension.** Whenever a Practitioner's DEA registration (or other authorization to prescribe controlled substances) is suspended by the DEA or other applicable federal or state authority, their Medical Staff appointment and Privileges shall be automatically suspended.
- (e) **Professional Liability Insurance.** If a Practitioner's Professional Liability Insurance coverage lapses, falls below the required minimum, is terminated, or otherwise ceases to be in effect, in whole or in part, the Practitioner's Medical Staff appointment and Privileges shall be automatically suspended until Professional Liability Insurance coverage is restored or the matter is otherwise resolved pursuant to the below.

The CVO or Medical Staff Office must be provided with a certified copy of the insurance certificate from the insurance company and a written statement explaining the circumstances of the Practitioner's non-compliance with the Hospital's Professional Liability Insurance requirements, any limitations on the new policy, and a summary of relevant activities during the period of non-compliance.

For purposes of this section, the failure of a Practitioner to provide proof of Professional Liability Insurance shall constitute failure to meet the requirements of this provision.

- (f) **Federal Health Program.** Whenever a Practitioner is suspended from participating in a Federal Health Program, the Practitioner's appointment and Privileges shall be automatically suspended.
- (g) **Failure to Complete Medical Records.** Whenever a Practitioner fails to complete medical records as provided for in Medical Staff governing documents and/or applicable Hospital (*i.e.*, Health Information Management) Policies, the Practitioner's Medical Staff appointment and/or Privileges shall be automatically suspended consistent with the applicable document(s).

- (h) **Plea of Guilty, etc.** If a Practitioner pleads guilty to, is found guilty of, or pleads no contest to a felony or other serious offense that involves (i) violence or abuse upon a person, conversion, embezzlement, or misappropriation of property; (ii) fraud, bribery, evidence tampering, or perjury; or, (iii) a drug offense, the Practitioner's Medical Staff appointment and Privileges shall be immediately and automatically terminated.

14.D.2. Action Following Imposition of Automatic Suspension/Limitation

At the next regularly scheduled meeting or sooner as necessary after the imposition of the automatic suspension, the MEC shall convene to determine if initiation of formal corrective action is necessary in accordance with Section 14.B. of these Bylaws.

The lifting of the action or inaction on the part of the Practitioner that gave rise to an automatic suspension of Medical Staff appointment and/or Privileges shall result in the automatic reinstatement of the Practitioner's appointment and/or Privileges. The Practitioner shall be obligated to provide such information as the Medical Staff Office shall reasonably request to assure that all information in the Practitioner's credentials file is current upon reinstatement.

14.D.3. Impact of Automatic Suspension

During such period of time when a Practitioner's Medical Staff appointment and/or Privileges are automatically suspended pursuant to Section 14.D., they may not, as applicable, exercise any Prerogatives of appointment or exercise any Privileges at the Hospital.

A Practitioner whose Privileges are automatically suspended pursuant to Section 14.D., (*i.e.*, for delinquent medical records), is subject to the same limitations except that such Practitioner may:

- Conclude the management of any patient under their care in the Hospital at the time of the effective date of the automatic suspension.
- Attend an obstetrical patient who has been under their care and management and who comes to term and is admitted to the Hospital in labor.
- Attend to the management of any patient under their care whose outpatient procedure was scheduled prior to the effective date of the automatic suspension.
- Attend to the management of any patient under their care requiring emergency care and intervention.

14.E: CONTINUITY OF PATIENT CARE

Upon the imposition of an automatic suspension or automatic termination of Medical Staff appointment and/or Privileges, the Medical Staff President or applicable Department Chair shall provide for alternative coverage for the affected Practitioner's Hospital patients.

The wishes of the patient shall be considered, where feasible, in choosing a substitute Practitioner. The affected Practitioner shall confer with the substitute Practitioner(s) to the extent necessary to safeguard the patients.

14.F: CONSISTENCY OF ACTIONS BETWEEN HOSPITAL & AFFILIATE HOSPITALS

So that there is consistency between the Hospital and Affiliate Hospitals regarding corrective action and the status of Medical Staff appointment and Privileges considering that the Hospital and the Affiliate Hospitals are part of the same Health System, and that the Hospital and the Affiliate Hospitals have agreed to share information regarding appointment and/or Privileges, the following automatic actions shall occur:

- (a) With the exception of an automatic suspension for delinquent medical records, if a Practitioner's appointment and/or Privileges are automatically suspended or automatically terminated, in whole or in part, at an Affiliate Hospital(s), the Practitioner's appointment and/or Privileges at this Hospital shall automatically and immediately become subject to the same action without recourse to the procedural rights set forth in these Bylaws and the Fair Hearing Policy.

- (b) If a Practitioner's appointment and/or Privileges are summarily suspended or if a Practitioner voluntarily agrees not to exercise Privileges while undergoing an investigation at an Affiliate Hospital(s), such summary suspension or voluntary agreement not to exercise Privileges shall automatically and equally apply to the Practitioner's appointment and/or Privileges at this Hospital and shall remain in effect until such time as the Affiliate Hospital(s) render(s) a final decision or otherwise terminate(s) the process.
- (c) If a Practitioner's appointment and/or Privileges are limited, suspended, or terminated at an Affiliate Hospital, in whole or in part, based on professional conduct or clinical competency concerns, the Practitioner's appointment and/or Privileges at this Hospital shall automatically and immediately become subject to the same decision without recourse to the procedural rights set forth in these Bylaws and the Fair Hearing Policy unless otherwise provided in the final decision at the Affiliate Hospital(s).
- (d) If a Practitioner resigns their Medical Staff appointment and/or Privileges at an Affiliate Hospital(s) while under investigation or to avoid investigation for professional conduct or clinical competency concerns, such resignation shall automatically and equally apply to the Practitioner's Medical Staff appointment and/or Privileges at this Hospital without recourse to the procedural rights set forth in these Bylaws and the Fair Hearing Policy.
- (e) If a Practitioner withdraws an application, in whole or in part, for initial appointment and/or Privileges at an Affiliate Hospital(s) for professional conduct or clinical competency concerns, such application withdrawal shall automatically and equally apply to applications for Medical Staff appointment and/or Privileges at this Hospital without recourse to the procedural rights set forth in these Bylaws and the Fair Hearing Policy.

15.A: MEDICAL HISTORY & PHYSICAL EXAMINATION; OUTPATIENT ASSESSMENTS

Patients shall, as applicable, receive a medical history and physical examination (H&P) no more than thirty (30) days prior to, or within twenty-four (24) hours after, registration or inpatient admission, but prior to surgery or a procedure requiring anesthesia services. For an H&P that was completed within thirty (30) days prior to registration or inpatient admission, an update documenting any changes in the patient's condition shall be completed within twenty-four hours after registration or inpatient admission, but prior to surgery or a procedure requiring anesthesia services. In lieu of the H&P requirements, an assessment for designated outpatients may be completed and documented after registration but prior to surgery or a procedure requiring anesthesia services provided that the conditions set forth in the Medical Staff Rules & Regulations are met.

The H&P or outpatient assessment, as applicable, shall be completed and documented by a Physician, an Oral Maxillofacial Surgeon, or other qualified licensed individual in accordance with State law and Hospital/Medical Staff policy.

Additional requirements regarding completion and documentation of the H&P or outpatient assessment, as applicable, are set forth the Medical Staff Medical Staff Rules & Regulations.

In addition, reports of actions taken pursuant to these Bylaws shall be made by the Medical Staff President or Hospital President to such governmental agencies as may be required by law.

Hospital shall maintain all information it receives from third parties in strict confidence, and the release of any such information shall be in accordance with applicable federal and state law, including, but not limited to, ORS §41.675 or RCW 4.24.240 & 70.41.200 or the corresponding provisions of any subsequent state or federal law providing protection to Peer Review or related activities. 16.C.1. Location and Security Precautions.

All Medical Staff Records are maintained in the Medical Staff Office under the custody of the Medical Staff Coordinator. 16.C.5. Credentials Files Changes.

A Member may request corrections, deletions, and additions to information in their credentials file, subject to the following conditions:

- (a) The request shall be made in writing to the Medical Staff President and shall include a reason for the action(s) requested.
- (b) The Medical Staff President (or designee) shall review such request within a reasonable period of time and decide whether to grant or deny the request. The Medical Staff President (or designee) may make reasonable modifications to the Member's request. The Member will be notified promptly, in writing, of the Medical Staff President's decision.
- (c) If granted, the appropriate action shall be taken, and the Member shall be so notified. If the request is denied, the Member shall be notified of the reason(s) for denial. - (d) In any case, a Member has the right to add a short, relevant, written statement to their own credentials file to support or rebut any information contained therein.

The petition shall designate three Members of the Active Staff to serve as the petitioners' representatives.

Upon presentation of a valid petition, the President of the Medical Staff shall convene a meeting between the petitioners' representatives and an equal number of Members of the Medical Executive Committee as they shall select.

The representatives of the Medical Executive Committee and the petitioners shall exchange information relevant to the conflict and shall work in good faith to resolve their differences in a manner that respects the positions of the Medical Staff, the leadership responsibilities of the Medical Executive Committee and the safety and quality of patient care at Hospital. Resolution of the conflict shall require a vote of the majority of the representatives of the Medical Executive Committee and a majority of the petitioners' representatives.

Differences which remain unresolved at the conclusion of this process shall be submitted to the Legacy Board for its consideration in making a final decision with respect to the bylaw, rule, regulation, policy, or issue. Nothing in the
