## Legacy Lab Alert

May 2015

An Important Update from Legacy Laboratory Services

### Urinalysis Orders

Urinalysis Order name changes will take effect on June 1, 2015. Changes are being made to align with the American Medical Association (AMA) definitions and to meet regulatory and billing compliance.

Written orders for a “*Urinalysis*” or “*UA*” will be performed as Urinalysis Dipstick only. If a microscopic exam is desired, please request one of the two choices listed below for UA and Microscopic.

- **UA and Microscopic**
- **UA and Microscopic with reflex to Culture if indicated**

Two new orders options have been added which do not include the dipstick test:

- **UA ONLY Microscopic**
- **UA ONLY Microscopic with reflex to Culture if indicated**

Key Point: Culture reflex criteria is based on the urine microscopic exam, therefore orders with C&S if Indicated must include a request for order for urine microscopic.

**Table 1. Summary of Urinalysis order options:**

Laboratory Test Order	CPT Codes	Includes...		
		Dipstick	Microscopic Exam	Reflexes to C&S if Indicated
UA and Microscopic	81001	X	X	
UA and Microscopic w Cult rflx*	81001	X	X	X
UA Dipstick	81003	X		
UA ONLY Microscopic	81015		X	
UA ONLY Microscopic w Cult rflx*	81015		X	X

\* When Culture is reflexed, CPT 87077, 87088 and 87186 may be added as needed.
