An Important Update from Legacy Laboratory Services

January 2019

Immature Granulocyte (IG) Reference Ranges

Effective January 8, 2019, changes will be made to the Hematology reference ranges for immature granulocytes (IG) percent and absolute count. The current reference ranges encompass all ages and gender. The new ranges will be age specific. This update will align Legacy Laboratory Services' reference ranges with other laboratories in the community. Please see Table below for changes.

Legacy Laboratories Immature Granulocyte (IG) Reference Range Changes				
	Age	Gender	IG %	IG x 10 ³ /uL
Current Reference Ranges	All ages	M/F	0.0 – 0.5	0.00 – 0.03
New Reference Ranges	0 – 14 days	M/F	0.0 – 1.9	0.00 – 0.28
	15 – 30 days	M/F	0.0 – 1.3	0.00 – 0.22
	>30 days	M/F	0.0 – 1.0	0.00 – 0.10

For specific questions, please contact:

Cathy Vongnath, Manager System Hematology (503 413-2441)

Gael Savage, Technical Specialist (503 413-1807)

Dr. Jason Hyde, Medical Director Hematopathology/Flow Cytometry (503 944-7941)
