Patient Scheduling at Legacy Laboratory Patient Service Centers

Appointment Requirement
To avoid crowds in waiting rooms and meet requirements for social distancing, Legacy Laboratory Services is requiring that patients schedule an appointment for lab draws and specimen drop-off. Patients or clinic staff may call 503-413-1234 or 877-270-5566 (toll free), Option 1, to schedule.

Masking Guidance
In accordance with the Legacy Health Masking policy we are asking all patients to wear a mask to their appointment. If a patient presents without a mask, they will be provided one upon arrival.

Patient Screening
We are screening each person entering a Legacy facility for COVID-19 symptoms, such as fever, runny nose, cough, sore throat, shortness of breath, or chills.

Scheduling
We encourage our clients to anticipate if a patient will require a blood collection and schedule as far in advance as possible. Due to the number of patients who utilize Legacy Laboratory Patient Service Centers, many locations are fully booked 2-3 days in advance. Our schedule is designed to accommodate one patient every 15 minutes at our smaller sites and two patients every 15 minutes at our larger locations. We have also reserved some limited time slots for same day requests.

Walk-ins
Walk-in patients are highly discouraged. Patients with appointments will be given priority and patients who present without an appointment will be asked to step out of the waiting area and make an appointment by calling 503-413-1234 or 877-270-5566 (toll free).

Same Day Collection Requests
Clinical staff who determine a patient must have a same day collection need to phone our Client Services Department by calling 503-413-1234 or 877-413-1234 (toll free) and indicate the need for a same day collection. Client Services staff will make every attempt to accommodate the patient.

Online Scheduling
Currently, we are unable to offer online scheduling. Legacy Laboratory Services is diligently working on adding this capability in the future to give patients and clinic staff the option to self-schedule.

Orders
All patients who present for specimen collection must have a valid laboratory order. Order processing and communication protocols have not changed. Please allow 24-48 hours for routine future orders to be processed.

Hours
Please see page 2 for a summary of locations, hours, and services.
## Legacy Laboratory Patient Service Center Hours and Services
