An Important Update from Legacy Laboratory Services

Updated Reporting Format for FVL and PGM Testing

Updated Test Reports Involved:

Factor V Mutation (Leiden), Mnemonic: FVL

Prothrombin Gene Mutation, Mnemonic: PGM

Effective today, Legacy Laboratory Services has updated the reporting format for FVL and PGM testing. The updated format intends to better communicate results to clinicians. In addition, a restructured interpretive statement is included to assist with clinical decisions and selection of treatment.

Specimen requirement guidelines and turn-around-times will NOT change.

For specific questions, please contact:

Marcie Hansen, Molecular Technical Specialist (503-944-5815), or

Stacie Lupo, Molecular Supervisor (503-413-2279)
