(Uninsured patients may call Patient Billing Services to receive a 35% discount. For more information please call: 503-413-4420)

Measles PCR Testing:

RT-PCR specimens received by Legacy Laboratory Services for measles testing will be sent to either the Oregon State Public Health Lab (OSPHL) or Washington State Public Health Lab, respectively.

Please review the testing requirements for your state below.

Oregon State:

- 1) Specimen must receive authorization from your [local public health authority](#) **prior** to submission.
- 2) Specimen must include a completed [OSHPL Virology/Immunology Test Request Form](#).

Additional guidance on clinical presentation and testing: [Oregon State Public Health Lab - Measles RT-PCR](#)

Washington State:

- 1) Healthcare providers (HCP) and laboratories must obtain **pre-approval** by contacting the [Local Health Jurisdiction \(LHJ\)](#) of the patient's county of residence.
- 2) Specimen must include a completed [Washington State Serology/Virology/HIV Form](#)

Additional guidance on clinical presentation and testing: [Washington Public Health Lab - Measles RT-PCR](#)
