

My life My Legacy

A good person to know

This is Nik Schreiber.

If you are having surgery, you are glad he is around.

That's because he makes sure that all of the supplies needed for medical care are properly stocked and ready for patients.

"We plan everything the day before; we inventory the nursing units to make sure they have what they need."

Speaking of a good person to know, Nik is also a green-thumb gardener who gives away more of his produce than he keeps for his family.

"My specialty is sun gold cherry tomatoes. My wife doesn't even like tomatoes, and she likes those."

This is his life. And this is his Legacy.

Our legacy is yours.
