

# Done with Cancer Treatment, What's Next?

Finishing cancer treatment can be a tough transition with many wondering when they will feel “normal” again. It’s common for people to feel lost, uncertain what symptoms to report or how long they will last and realize that priorities or relationships may have changed. Join Caitlin Walther, LCSW, and Laurie Christensen, RN, OCN, to learn more about these topics and how to navigate life beyond cancer.

This talk is for cancer patients and survivors who have completed active treatment and are in their follow-up period. Also open to those living with advanced or metastatic cancer, and who are on long-term treatment. Open to family members, but most applicable to cancer patients/survivors.

**Wednesday, February 18th, 2026**

**5:30 – 7:00 pm**

**At the Legacy Salmon Creek Cancer Healing Center**

**TO REGISTER: Scan the QR code with your phone, or visit**
