

# giving health

2018 annual report

## areas your gifts supported

**\$18.3 million**

total distributed from donations and investment income

“Integrative medicine is an approach to care that is relationship-based and focused on promoting healing and well-being of the whole person.”

– Cynthia Aks, D.O.  
Legacy Medical Group-  
Surgical Oncology

## transforming patient care

Converted 13 **Neonatal Intensive Care Unit** patient rooms into Family Integrated Care rooms

Support of **Child Abuse Intervention** programs at Randall Children's Hospital and Legacy Salmon Creek Medical Center

Received an **Artic Sun cooling therapy system** to precisely decrease an infant's body temperature, reducing the risk of seizures and brain injury

Acquired a **robotic exoskeleton system** to enable patients with a spinal cord injury to stand upright and walk

Purchased the **SAVI Scout**, which makes breast cancer surgery easier by marking a tumor's location up to 30 days prior to surgery

**Hospice support**, from in-home respite care, bereavement programs and interpretive services, to comfort care items and activities

Launched two new **Type 2 diabetes** prevention programs

**Cancer care support**, such as art therapy, healing gardens, exercise programs, new technology and comfort items

Purchased a second Spectralis OCT Imaging System for **Legacy Devers Eye Institute** to monitor the most serious and potentially blinding eye diseases

“Legacy was awesome; I don’t think they could ever imagine how valuable their support was.”

– A grateful patient

## patient assistance

- 9 hearing aids for pediatric patients unable to obtain a device due to financial constraints
- +400 patients given durable medical equipment with helpful aids, such as walkers, crutches and wheelchairs
- +500 families helped with family food assistance when arriving at Randall Children’s Hospital for an unexpected lengthy stay
- +3,500 patients received prescriptions for vital medications, such as chemotherapy, inhalers and insulin
- +1,500 patients received support for basic living needs, such as rent, utility bills, public transit tickets, meal vouchers and hygiene kits

## community health education

+30,000  
community members served

More than 6,000 bicycle helmets were distributed through Legacy’s Trauma Nurses Talk Tough Helmet program

3,800 middle school students received hands-only CPR training through Legacy’s Healthy Hearts program

1,500 community members received vital safety products, such as baby gates and window stops, from Randall Children’s Hospital’s Safety Center

379 new homes were built for individuals and families who are at risk of becoming homeless — part of a unique ‘Housing is Health’ collaboration between Legacy Health, Central City Concern and five other health care organizations

## research

Funded 32 projects at Legacy Research Institute

Investigating new technologies and treatments to **prevent and reverse blindness**

Developing therapeutic approaches to design treatment options for **Parkinson’s disease and epilepsy**

Developing a **personalized cancer treatment** that will kill cancer at the metabolic level

Discovering new ways to **repair the brain** after a neurologic injury caused by stroke or a traumatic brain injury

Studying **clinical outcomes** to identify the most effective patient care models and treatments

## provider and staff education

**Nursing** scholarships and training for employees to advance their skills and education

Awarded scholarships to minority seminary students/ congregation leaders to attend Legacy’s Clinical **Pastoral Education** program

Funded Explain Pain training for **Legacy’s therapists** to learn effective, non-medical pain management methods

Supported the **40th Annual Swanman Lecture Series** — a regional high-risk perinatal conference featuring nationally recognized experts

## Unity Center for Behavioral Health

\$7.6 million  
distributed toward construction and equipment costs

Funded the **Unity Peer Bridger** program, which provides high-risk patients with the resources they need to be successful

Provided **discharge medications** so patients can continue their recovery

“I feel blessed. I will be forever grateful to Unity. . . they saved my life.”

– A grateful patient
