

About Our Graduates

We understand that one of the criteria you may consider as you select a residency program is how that residency program can help you meet your post-residency goals.

Graduates of Legacy Health's PMSR/RRA are well-prepared to accent the vast opportunities available to them. Some choose to begin private practice –remaining in the Pacific Northwest or returning to their home communities, others choose to further their academic experience through fellowship programs. Regardless of the path you pursue, your training at Legacy Health will ensure you're prepared to meet the challenge.

As you consider your post-residency plans, below is a glimpse of our recent alumni...where they went to medical school, the year they graduated from our residency program, and where they are now.

Our 2026 graduates are:
