

Clearing the Fog: Strategies for Coping with Chemo Brain

The Legacy Cancer Healing Center invites you to join Julia Robinson, SLP, as she discusses this important topic.

Chemo brain refers to the mental fog that many experience during or after cancer treatment. It can affect memory, thinking, and concentration. Learn some simple tips to help with chemo brain from our speech pathologist, Julia Robinson, SLP.

This online event is open to anyone who has undergone cancer treatment and wants to know more about managing chemo brain.

When: Thursday, November 12th, 12 - 1 p.m.

Where: Virtual via Zoom

Registration: Free online event. Pre-registration required
