

Female Sexual Health After Cancer Treatment

Presented by Trish Ault, DPT
and Melissa Moffitt, MD

Join pelvic floor specialist, Trish Ault, and Gynecologic Oncologist, Dr. Melissa Moffitt, as they discuss the effects of cancer and treatment on female sexual health and function. Participants can expect to better understand techniques, treatments, and approaches to improve issues with incontinence, pain, and sexual dysfunction. This is relevant to all ages and open to anyone who has gone through cancer treatment.

When: Tuesday, May 26, 5:30-7pm

Where: Virtual via Zoom

Registration: Scan the QR code or visit
