Continue on next slide

Good Samaritan & Emanuel ICU (cont.)

Rotation and team dynamics:

- Two teams of a senior-intern pair plus medical students
- Responsible for critically ill patients under a single teaching Intensivist. Will also round with Neurointensivist at Emanuel.
- Mix of medical, surgical, and neuro patients
- Night Medicine Team covers ICU at night (senior resident's role)
- Primary responders Code Blue and Rapid Response

Teaching:

Kern Good Sam ICU:

- ICU lectures from various sub-specialists/pharmacists daily
- Multi-disciplinary rounds (4pm daily) in Good Sam Kern: Includes attending, pharmacy, nutrition, charge nurse, social work, etc.

Both:

- Daily Teaching rounds
- Simulation Lab: Two Tuesdays of each block (1-4pm)
- Core ICU teaching articles

Night Medicine

- One intern and one senior resident teams that alternate between the two hospitals
- Schedule: 8 PM to 7 AM for four days and then 2 days off
- Dedicated 2-4 week blocks
- Senior resident covers the ICU and the intern covers the wards. Both will admit to the ICU and the wards up to a cap of 8 per night.
- In-house Hospitalist at both hospitals 24/7
- Swing Intensivist until midnight and then on call from home

Clinic Block

Clinic “Medical Home” Team

- Multiple residents on clinic block & *+1 Week* at each of two teaching clinic site: Good Samaritan and Emanuel
- “Block Docs” are responsible for covering continuity patients of other residents who are on inpatient rotations

Scheduling Note

- 4 weeks dedicated to ambulatory clinic experience in continuity clinic
- Half and full day sessions in subspecialty clinics including geriatrics, sports medicine, cardiology, and addiction medicine
- Exposure to faculty medicine clinics as a senior resident

Learning Environment

- Direct contact with clinic precepting physicians who have active outpatient internal Medicine practices

Legacy Clinic
Emanuel

Legacy Clinic
Good Samaritan

Selectives

- 4-week required blocks allow experience in a variety of medical subspecialties throughout all 3 years of residency
 - > Pulmonology
 - > Cardiology
 - > Hematology/Oncology
 - > Gastroenterology
 - > Nephrology
 - > Neurology (two weeks)
 - > Geriatrics

- Half days of continuity clinic responsibilities throughout the rotation
- Mixture of inpatient and ambulatory specialty experiences
- Additional selective experiences are built into +1 weeks and clinic blocks throughout residency

Electives

- Senior residents will have 4-5 blocks of elective time during their R2 and R3 years.
- Electives allow experience with a variety of physicians in the Legacy System as well as the surrounding community who are dedicated to resident education
- Opportunities in a number of on-site or off-site rotations. Examples include:
 - > Palliative Care
 - > Infectious Disease
 - > Behavioral Health
 - > Dermatology
 - > EKG Reading
 - > Endocrine
 - > Ethics
 - > Evidence Based Medicine
 - > Hospitalist
 - > Pulmonary
 - > Rheumatology
 - > Radiology
 - > Sleep Medicine
 - > International Experiences

Vacation

- Residents have fifteen weekdays of vacation per year that may be taken as one to two weeks during electives, one week on certain selectives, and on +1 weeks. They will also receive the weekend off on the end of each vacation week.
- Seven additional days off over either the Christmas holiday or New Year holiday are determined by lottery each year.
