Because local matters

The Legacy Meridian Park Expansion Project

The Pillars of Excellence luncheon will raise funds and awareness to support the Legacy Meridian Park Patient Care Expansion Capital Project

Legacy Meridian Park Medical Center offers specialized services and expertise often found in larger medical centers. Residents of the Southwest Portland metropolitan area (South Metro) rely on us for emergency, critical care, and hospital care related to an illness or surgery, as well as other specialized health services.

While many of our services are state-of-the-art, Legacy Meridian Park is over 40 years old and we anticipate that, due to the dramatic pace of growth in our local community, in the very near future we will not have the capacity to serve everyone from our community who needs to be hospitalized for care.

As your local hospital, we want to accommodate and provide the best possible service to you, your family and neighbors. To ensure that our community can continue to receive world class care near where they live and work, Legacy Meridian Park is embarking on an extensive expansion project. Our vision is to create a welcoming, healing environment that offers exceptional health care using the latest technology and best medical practices.

This project will make a profound difference for the Legacy Meridian Park campus, our patients and visitors. With your support, by summer 2017 we will open a newly expanded medical center, where improvements abound and patients benefit from surroundings planned specifically to put their safety and comfort first and foremost, while incorporating the latest expertise in design and technology.
