Devers Scientist Publications 2000

Johnson CA, Cioffi GA, Liebmann JR, Sample PA, Zangwill LM, Weinreb RN.
The relationship between structural and functional alterations in glaucoma: a review.

Bosworth CF, Sample PA, Johnson CA, Weinreb RN.
Current practice with standard automated perimetry.

McKendrick AM, Johnson CA.
Aliasing for rapidly counterphasing stimuli: a failure to demonstrate an M-cell sampling limit to resolution.

Keltner JL, Johnson CA, Quigg JM, Cello KE, Kass MA, Gordon MO.
Confirmation of visual field abnormalities in the Ocular Hypertension Treatment Study. Ocular Hypertension Treatment Study Group.

Terry MA.
The evolution of lamellar grafting techniques over twenty-five years.

Nelson-Quigg JM, Cello K, Johnson CA.
Predicting binocular visual field sensitivity from monocular visual field results.

Spry PG, Bates AB, Johnson CA, Chauhan BC.
Simulation of longitudinal threshold visual field data.

Zhao DY, Cioffi GA.
Anterior optic nerve microvascular changes in human glaucomatous optic neuropathy.
Mansberger SL, Cioffi GA.
Eyelash formation secondary to latanoprost treatment in a patient with alopecia.

McKendrick AM, Vingrys AJ, Badcock DR, Heywood JT.
Visual field losses in subjects with migraine headaches.

Cello KE, Nelson-Quigg JM, Johnson CA.
Frequency doubling technology perimetry for detection of glaucomatous visual field loss.

Demirel S, Johnson CA.
Isolation of short-wavelength sensitive mechanisms in normal and glaucomatous visual field regions.

Cioffi GA, Liebmann JM, Johnson CA, Weinreb RN.
Structural-functional relationships of the optic nerve in glaucoma.

Cioffi GA, Mansberger S, Spry P, Johnson C, Van Buskirk EM.
Frequency doubling perimetry and the detection of eye disease in the community.

Schneck ME, Fortune B, Adams AJ.
The fast oscillation of the electrooculogram reveals sensitivity of the human outer retina/retinal pigment epithelium to glucose level.
