A grateful patient becomes a generous donor

Peter Belluschi had his first eye surgery in Seattle four decades ago. Years later, he met Mark Terry, M.D., director of corneal services at Legacy Devers Eye Institute – Emanuel. Their paths crossed again when Terry performed cataract surgery on both of Belluschi’s eyes, as well as a partial implant. Currently, Belluschi is undergoing a treatment for macular degeneration.

Then he met Mark Terry, M.D., director of corneal services at Legacy Devers Eye Institute – Emanuel. Their paths crossed again when Terry performed cataract surgery on both of Belluschi’s eyes, as well as a partial implant. Currently, Belluschi is undergoing a treatment for macular degeneration.
